

Invited Lecture

The 112th RCKC Colloquium

Research Center for Knowledge Communities at University of Tsukuba presents

“New Perspectives in Social Data Management”

Dr. Sihem Amer-Yahia

Centre national de la recherche scientifique

Abstract

The web has evolved from a technology platform to a social milieu where factual, opinion and behavior data interleave. A number of social applications are being built to analyze and extract value from this data, encouraging us to adopt a data-driven approach to research.

I will describe a perspective on why and how social data management is fundamentally different from data management as it is taught in school today. More specifically, I'll talk about data preparation, data exploration and crowd-sourced validation.

This talk is based on published and ongoing work with colleagues at LIG, UT Austin, U. of Trento, U. of Tacoma, and Google Research.

Date : May 20, 2014 (Tues.) 13:30-14:30

**Venue : Meeting room for Joint Research 1 on the 3rd floor of
ULIS bldg. in Kasuga Area**

**Sponsor : Research Center for Knowledge Communities,
University of Tsukuba**

文部科学省科研費「データ中心型クラウドソーシングプラットフォームの高度化とその応用に関する研究」

The seminar will be presented in English. There is no charge to participate and no reservation is needed.

**Research Center for Knowledge Communities,
University of Tsukuba**
